Author Index to Volume 8

Arpino, P.: Combined liquid chromatography mass spectrometry. Part I. Coupling by means of a moving belt interface, 35

Bartmess, J.E.: Gas-phase equilibrium affinity scales and chemical ionization mass spectrometry, 297
Budzikiewicz, H.: Selected reviews on mass spectrometric topics, 57, 119, 199, 293, 435

Cairns, T.: Evolving criteria for confirmation of trace level residues in food and drugs by mass spectrometry. Part I, 93
—: Evolving criteria for confirmation of trace level residues in food and drugs by mass spectrometry. Part II, 127
Claeys, M.: Mass spectrometry methods for structural determination and analysis of lipoxygenase and cytochrome P-450 metabolites of essential fatty acids, 1
Chowdhury, A.K.: See Wilkins, C.L.
Coates, M.L.: See Wilkins, C.L.

Gross, M.L.: Mass spectrometry research: An interplay between ion chemistry, instrumental development, and applications, 165

Harris, F.M.: See Mathur, D.
Holmes, J.L.: The neutralization of organic cations, 513
Horning, M.G.: Mass spectrometry of methylthio metabolites of aromatic hydrocarbons and related substances, 147

Lertratanangkoon, K.: See Horning, M.G.

Mathur, D.: Singly, doubly, and triply charged cations of carbon disulfide, 269
Matsuo, T.: High performance sector mass spectrometers: Past and present, 203
—: See Wada, Y.
Middleditch, B.S.: See Horning, M.G.

Nuwaysir, L.M.: See Wilkins, C.L.

Sakurai, T.: See Wada, Y.
Shaw, R.W.: See Smith, D.H.
Siegmund, E.G.: See Cairns, T., Parts I and II

Smith, D.H.: Elemental resonance ionization mass spectrometry: A review, 345
Stamp, J.J.: See Cairns, T., Parts I and II

Tomer, K.B.: The development of fast bombardment combined with tandem mass spectrometry for the determination of biomolecules, 445
—: FAB/MS/MS for the determination of biomolecules: A compendium, 483

van der Hart, W.J.: Photodissociation of trapped ions, 237

Wada, Y.: Structure elucidation of hemoglobin variants and other proteins by digit-printing method, 379
Wilkins, C.L.: Fourier transform mass spectrometry: Current status, 67

Young, J.P.: See Smith, D.H.
